Start → 1st Hole																																								
1st Hole → 2nd Hole																																								
2nd Hole → 3rd Hole																																								
3rd Hole → 4th Hole																																								
4rd Hole → 5th Hole																																								
5rd Hole → 6th Hole																																								
6rd Hole → 7th Hole																																								
7rd Hole → 8th Hole																																								
8rd Hole → 9th Hole																																								
9rd Hole → 10th Hole																																								

*The Orange square is the PAR for that hole

Scoring

General

+0 points for formatting and selection
+1 point for every change made to the code using a shortcut or automated IDE feature (e.g., an automated refactoring, code template, rename, or Find/Replace)
+2 points for every manual edit. Note that a single "edit" could cover multiple lines of code.

Penalties

x2 There is a double points penalty for changes that leave the code failing the tests or not compiling.
